Online Hybrid Job Calculator

In all organizations there might be so called “hybrid job” positions where employee is for example responsible for marketing and sales at the same time. In order to resolve those situations we have created a Online Hybrid Job Calculator.

Hybrid job calculator All regions

Accounting I (121) Weight 100

Accounting II (184) Weight 100

This tool calculates the combined result but does not necessarily reflect the actual remuneration paid for such work on the market. Add new +
