

## **Compensation Survey Seminar**

Compensation Survey Seminar is held every autumn after the completion of the compensation survey.

During 2-3 hours clients will get an in-depth overview of what is happening in the compensation market (significant changes of the year, observations of notice and how they best help the organizations to use the survey, what to consider making next year's compensation decisions etc) and practical tips how to use the survey.

After the seminar, all participants will be able to download the seminar slides from the Figure Baltic Advisory compensation survey environment.

The event is free of charge for all survey participants.
